# ABclonal®

# **Recombinant Human CCL7/MCP-3 Protein**

Catalog No.: RP00063 Recombinant

# **Sequence Information**

Species Gene ID Swiss Prot <I>E. 6354 P80098 coli</I>

Tags

No tag

**Synonyms** 

CCL7;FIC;MARC;MCP-3;MCP3;NC28;SC YA6;SCYA7

### **Product Information**

Source Purification
<I>E. coli</I> > 95% by SDSPAGE.

## **Endotoxin**

< 1.0 EU/µg of the protein by LAL method.

#### **Formulation**

Lyophilized from a 0.22 µm filtered solution of 20mM Tris, 500mM NaCl, pH 8.0.Contact us for customized product form or formulation.

#### Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

# **Background**

This protein is monocyte chemotactic protein 3, a secreted chemokine which attracts macrophages during inflammation and metastasis. It is a member of the C-C subfamily of chemokines which are characterized by having two adjacent cysteine residues. The protein is an in vivo substrate of matrix metalloproteinase 2, an enzyme which degrades components of the extracellular matrix.

## **Basic Information**

#### Description

Recombinant Human CCL7/MCP-3 Protein is produced by <I>E. coli</I> expression system. The target protein is expressed with sequence (Gln24-Leu99) of human MCP-3/CCL7 (Accession #NP\_006264.2).

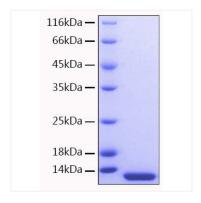

#### **Bio-Activity**

#### Storage

Store at  $-20^{\circ}$ C. Store the lyophilized protein at  $-20^{\circ}$ C to  $-80^{\circ}$ C up to 1 year from the date of receipt. <br/>
-20^{\circ} for 3 months, at 2-8^{\circ} for up to 1 week.

Avoid repeated freeze/thaw cycles.

# **Validation Data**

Recombinant Human CCL7/MCP-3 Protein was determined by SDS-PAGE with Coomassie Blue, showing a band at 13 kDa.
