

Anti MOK protein kinase Polyclonal Antibody

Package Size	25 μ g (100 μ L / vial)
Format	Rabbit polyclonal antibody 0.25mg/mL
Buffer	PBS [containing 2% Block Ace as a stabilizer, 0.1% Proclin as a bacteriostat]
Storage	Store below -20°C Once thawed, store at 4°C. Repeated freeze-thaw cycles should be avoided.
Purification method	This antibody was purified from rabbit serum immunized with recombinant mouse MOK containing C-terminal 111 amino acid by antigen affinity chromatography.
Working dilution	For Western blotting; 0.05~0.2 μ g/mL For Immunohistochemistry; 0.5~2.0 μ g/mL

Western blotting

Sample : COS7 cell extract
① control
② MOK protein kinase transfected

Immunohistochemistry

Sample : Mouse small intestine

Preparation of antibodies and instruction :

Nishida E, Miyata Y
Department of Cell and Developmental Biology
Graduate School of Biostudies, Kyoto University

Uesaka T
Laboratory for Neuronal Differentiation and
Regeneration
Center for Developmental Biology, RIKEN

Anti MOK protein kinase Polyclonal Antibody
